PHONE SERVICE for SALES PROFESSIONALS

QUALITY
VOICE & DATA

What is Phone Service for Sales Professionals?

Sales Professionals are power users of the phone on their desk. Our service is a stand-alone telephone that plugs into any Internet connection, with Enhanced Caller ID Capabilities. Our web interface combined with telephone numbers that are available in every area code allows you to control what your prospects see on their Caller ID Box.

Why choose our solution?

- **Caller ID numbers:** Numbers available in any code - with 15 character name display. Target your market by matching your Caller ID with your prospect's market. 40%+ lift in answer rate.

YOUR NAME
(516) 656-5111

- **Control your Caller ID in Real Time:** Our web portal allows you to change the Caller ID number your phone displays.

- **Call Detail Records:** Understand the details of each call with our dashboard summary report. You can see calls by date and time, number of dials and duration of calls.

- **Three Line Appearances:** Use the hold button to answer incoming calls.

- **Voicemail:** Messages are sent to you via email

Using Local Numbers = Increase Answer and Conversion Rates!!!!

Local Caller ID Numbers can give your company the competitive edge.

Take control of what appears on your outbound Caller ID. Customize your campaign by using local numbers within your target market. Numbers are available for every U.S. area code, giving you the power to boost answer rats and increase ROI.

• Answer rates have increased up to 40% when using localized names and numbers. This means better list penetration, higher contacts-per-hour and more sales!

• Control the name and number that displays for your outbound calling campaigns

• Rotate caller ID numbers to minimize impressions of the same number within your target market

• Choose from over 50,000 local numbers in inventory

• Fully complies with the Truth in Caller ID Act

Increase Answer Rates by 40% when using a Local Number
